

SWC-D84L

Alpine Adventure Audio In-Cabin Subwoofer

General

Alpine Adventure Audio In-Cabin Speaker

The new series of Adventure Audio In-Cabin Speakers feature a high-quality finish, modern design, and excellent sound reproduction in an ultra-compact form factor. Their exceptionally compact design and the option for horizontal or vertical installation allow for symmetrical and well-aligned installations that are not possible with conventional car-audio speakers. To complete your system, the Alpine Adventure Audio In-Cabin subwoofer SWC-D84L is designed to perfectly harmonize with the In-Cabin speakers for a highly dynamic and harmonic sound reproduction in your motorhome or camper van.

Powerful Bass Upgrade

Enjoy strong, powerful bass in your motorhome, camper van or caravan with this 480 Watt (max power handling) 20 cm subwoofer and make all your audio tracks sound even more exciting. The dual-coil subwoofer comes pre-installed in a sealed enclosure and is designed for installation behind a panel in the cabin.

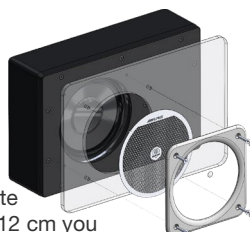

Excellent Build Quality

Constructed from beech multiplex, the subwoofer enclosure is very sturdy and features a die-cast top plate to ensure a solid installation of the woofer. The woofer grill is constructed from brushed stainless steel and features an Alpine logo. It features a side-panel connector terminal for easy access of the wiring.

Hidden Installation

The SWC-D84L is designed to be installed behind a panel or inside a storage compartment of your motorhome cabin. The only visible item is the subwoofer grille, which is installed outside of the panel facing the motorhome's cabin. This ensures a very clean appearance in your vehicle. With a quite compact measurement of 40 cm x 27 cm x 12 cm you can surely find a suitable space in your motorhome cabin.
