

i905D-F Alpine Freestyle

9-inch Digital Media Station – DAB+ / CarPlay / Android Auto / Bluetooth

androidauto

General

Specifications

Digital Media Station

The i905D-F is the newest generation of Alpine's Freestyle product line. It features a capacitive 9-inch high-resolution WXGA HD touchscreen. The large screen gives you full control over all multimedia, CarPlay, Android Auto and Bluetooth® functions. The 1-DIN chassis allows maximum flexibility when installed in the vehicle and is compatible with virtually any vehicle.

Sound Quality

Bring extraordinary sound quality to your vehicle: The Alpine Freestyle is the world's first Head Unit with a built-in Class-D amplifier and features a wide range of professional sound tuning functions such as frequency crossover, a parametric EQ, digital time correction and much more. With the BASS ENGINE SQ function, your bass sound is optimized. It automatically adjusts frequency cut-off, Q factor and subwoofer level for optimum sound quality as well as tonal balance.

Works with Apple CarPlay Wireless

The i905D-F "Works with Apple CarPlay" wirelessly and lets iPhone users make and receive calls, access and write text messages, play music, and get direction in a way that allows them to stay focused on the road. Apple CarPlay is accessed through the capacitive touchscreen or the mic button to activate Siri voice control. Due to the Wi-Fi connection, you can keep your iPhone in your pocket and do not need to plug it in all the time (except for charging).

androidauto

Works with Android Auto

Connect your Android smartphone to use all Android Auto approved apps and Google Assistant with your Alpine system.

USB Audio/Video Playback

2 USB ports located on the back of the unit allow you for example to connect one mobile device for charging, while the other USB port is used to plug in a USB stick or hard drive to access audio and video files.

General

- New built-in DAB+/FM/AM receiver with seamless linking switching between DAB+ – DAB+ – FM
- RDS tuner with auto memory, TA, AF, EON, Radio Text Function
- GPS compatible antenna included
- Built-in wideband Bluetooth® module and microphone
