

SPC-R100S

12 cm Radial Speaker for Motorhomes (universal)

Vehicles

The full range speaker concept –
Perfect omnidirectional sound in your vehicle

These speakers feature new innovative sound technologies to help achieve the desired sound quality in your motorhome or camper van. This include the convex cone design, which results in excellent 360-degree sound dispersion. They provide excellent sound detail, especially for voice reproduction. This greatly improves listening to news, podcasts or audiobooks, but also normal music tracks sound more detailed and balanced. The very flat design allows surface mounting without taking up much installation space in the vehicle.
